Dhayah Fort

With a backdrop of steep mountains, the bay of Dhayah has always been a very fertile area and has been settled in at least since the third millennium BC. A conical shaped hill at the edge of the palm garden and at the foot of the mountains, served as a natural defense post for the oasis. People have used this hill since prehistoric times for settlement and fortification alike.

Today it is crowned by a fortress, built during the 19th century on the foundations of much older structures. It is the only hilltop fort still existing in the UAE and offers a fantastic view of the lush palm gardens, the sea and the dramatic mountains

An undisturbed picture of life before the discovery of oil was left behind and preserved until today. This location is one of the best places to study traditional coral-stone architecture, used along the coast of the UAE.
